Working Experience

Data Science Research Intern May 2026 - Jun 2026

Arkansas Summer Research Institute (ASRI) *Virtual*

- Collaborated on an NSF EPSCoR-funded project to quantify the spatiotemporal impacts of diverse convective and synoptic storm events on property damage across the United States utilizing NOAA weather datasets
- Co-developed a Python-based predictive framework for large-scale meteorological and hazard data analytics, leveraging Pandas, Matplotlib for data visualization, and ANOVA to execute rigorous statistical validation for scientific publication

Graduate Teaching Assistant of Geospatial Applications Aug 2024 - May 2026

Department of Geosciences *University of Arkansas, Fayetteville*

- Assisted over 100 students with lab exercises on managing complex geospatial datasets, ensuring high-accuracy GNSS integration for transportation network modeling and advanced geospatial programming
- Contributed to the design of GIS-based statistical methodologies to support data-driven safety interventions
- Provided support in curriculum development, Grading, Workday screening, updating, and Final grade preparation

Graduate Teaching Assistant of Introduction to Geodatabase Aug 2025 - Dec 2025

Department of Geosciences *University of Arkansas, Fayetteville*

- Provided support for geodatabase maintenance, designing schemas, writing SQL queries and managing topology
- Assisted in managing relational geodatabases and feature classes to support spatial analysis of roadway datasets
- Assisted in troubleshooting, geodatabase versioning, editing workflows, data standardization and validation

Climate Change Intern Nov 2022

Internship on Climate change, Adaptation and Mitigation *Ministry of Environment and Climate Change, Bangladesh*

- Engaged in water quality monitoring, wastewater treatment, and ETP-based planning and alternative community-based method analysis to support planning, data-driven decision-making, and project evaluation
- Developed and applied adaptive strategies for disaster mitigation in temperate regions, facilitating planning and analysis to improve public safety and infrastructure resilience

Education

University of Arkansas, Fayetteville Aug 2024 - Jul 2026

MS in Geospatial Science *CGPA: 4.0/4.0*

Jahangirnagar University Mar 2021 - Jun 2023

Master of Science (M.Sc.) in Environmental Sciences *CGPA:3.78/4.00*

Jahangirnagar University Sep 2016 - Feb 2021

Bachelor of Science (B.Sc.) in Environmental Sciences *CGPA: 3.52/4.00*

Technical Skills

Modeling and Spatial Analysis: ArcGIS Pro, ArcGIS Online, Google Earth Engine, SNAP

Enterprise & Administrative Systems: Workday, ArcGIS Enterprise, Google Workspace

Programming: Python, R Studio, JavaScript

Designing and Reporting: Adobe, Canva, Latex, Illustrator, MS Word, MS Powerpoint, Microsoft Excel, Google Docs

Related Coursework

Environmental Engineering, GIS Analysis and Modeling, Unmanned Aircraft Systems (UAV), Statistical Methods

Publication

Title: *LST mapping and Thermal Hotspot modeling using remote sensing and geosapatial programming in Texas* Mar 2026

Authors: **F. S. Mim**, M.H. Aly, AAG Annual Meeting, 2026

Title:*Operational Flood Hazard Mapping and Impact Assessment in Bangladesh Using Sentinel-1, MODIS, and Google Earth Engine* Mar 2025

Authors: **F. S. Mim**, M.H. Aly, GSA Southcentral Sectional Meeting, 2025

Title: *Assessment of Radiation Hazard in Indoor and Outdoor Environment of DMCH Campus by In-situ Method* Mar 2020

Authors: **F. S. Mim**, M. S. Rahman, S. M. Tareq, and S. Yeasmin, International Conference on Physics, 2020

Awards and Achievements

Geovision Scholarship Aug 2025 - May 2026

Jack D Mussett Scholarship Aug 2024 - May 2025

National Science and Technology Fellowship awarded by the Ministry of Science and Technology, Bangladesh Dec 2022

Academic scholarship May 2016 – Jun 2019
